Module Outline **2025**

Updated 15 August 2025

Contents

1.	Introduction.....	3
1.1.	The purpose of the module framework	3
1.2.	Module prerequisites.....	3
1.3.	Module outcomes	3
1.4.	Language of instruction.....	3
1.5.	Academic and Career advice.....	3
2.	Administration	4
2.1.	Module convenor	4
2.2.	Lecturers & additional information	4
2.3.	Lecture groups	4
2.4.	Lecture times	5
3.	Resources.....	6
3.1.	Prescribed textbook	6
3.2.	Suggested additional resources and literature.....	7
4.	Learning methodology.....	7
4.1.	Method of instruction	7
4.2.	Participation in module activities.....	7
4.3.	Tutorial classes.....	7
4.4.	EMSLearn.....	8
4.5.	Consultation times and the use of the EMSLearn discussion forum.....	8
4.6.	Copyright	9
5.	Assessment for semester modules.....	9
5.1.	Assessment opportunities.....	9
5.2.	Pass requirements	11
5.3.	Work covered per assessment opportunity	11
5.4.	Turnover time/feedback.....	12
5.5.	Handout of assessment scripts and appeal procedure	12
6.	Work program.....	12

1. INTRODUCTION

1.1. THE PURPOSE OF THE MODULE FRAMEWORK

This module framework contains important information regarding the content, assessments and administration of the module. The module framework is a document that is regarded as an agreement between the lecturer and student.

1.2. MODULE PREREQUISITES

Corequisite module: Economics 114.

1.3. MODULE OUTCOMES

After the successful completion of this module, you will be able to:

- ✓ explain how the aggregate economy is measured and functions (including the multiplier model);
- ✓ critically discuss unemployment and the role of fiscal policy;
- ✓ critically discuss inflation and the role of monetary policy;
- ✓ explain the money market and the role the central bank plays;
- ✓ briefly discuss macroeconomic policy in the global economy;
- ✓ apply your economic knowledge to understand and critically debate South African contemporary economic issues, such as economic growth and development, inflation, unemployment, external stability, inequality, etc.

1.4. LANGUAGE OF INSTRUCTION

Economics 144 is presented according to the language option as indicated in the faculty language plan: **PARALLEL MEDIUM**.

Excerpt from the Language Policy of Stellenbosch University (December 2021):

For undergraduate modules where it is reasonably practicable and pedagogically sound to have more than one class group:

There are separate lectures in Afrikaans and English.

Learning opportunities, such as group work, assignments, tutorials, and practicals involving students from various language groups are utilised to promote integration within programmes.

Students are supported in Afrikaans and English during a combination of appropriate, facilitated learning opportunities (e.g., consultations during office hours or scheduled tutorials and practicals).

1.5. ACADEMIC AND CAREER ADVICE

Please consult your lecturer, module convenor or programme leader for academic and/or career advice as they are best positioned to offer guidance on matters related to module choices and future career trajectories. The Registrar's division only deals with matters related to your registration.

2. ADMINISTRATION

2.1. MODULE CONVENOR

Name	Office	E-mail address	Telephone number	Consultation hours
Ms O Ezeobi	Schumann 612	olivia@sun.ac.za	021 808 2828	By appointment

2.2. LECTURERS & ADDITIONAL INFORMATION

Name	Office	E-mail address	Telephone number	Consultation hours
Ms L Dube	Schumann 605	lindadube@sun.ac.za	021 808 2247	By appointment
Ms G Jacobs	Schumann 507	gabyjacobs@sun.ac.za	021 808 2247	By appointment
Ms S Morrow	Schumann 507	sineadmorrow@sun.ac.za	021 808 2247	By appointment
Ms M Ngwenya	Schumann 620	mosima@sun.ac.za	021 808 2236	By appointment
Ms L Nieuwoudt	Schumann 517	lnieuw@sun.ac.za	021 808 2416	By appointment
Mr JH Pretorius	Schumann 601	jhpretorius@sun.ac.za	021 808 2247	By appointment

Internal moderator: Ms C Smit (carina@sun.ac.za)

Administrative queries: Ms MD Tony (mtony@sun.ac.za)

Physical address of the Department of Economics:

CGW Schumann Building
Fifth and sixth floors
Bosman Street
Stellenbosch
7600

Departmental telephone number: +27 (0)21 808 2247

2.3. LECTURE GROUPS

Typically, at the beginning of the academic year, first year students are allocated to lecture groups for the entirety of the academic year, with personal class timetables following shortly after. **However, since the initial lecture group allocation process at the beginning of the year, a significant number of timetable and venue changes had to be implemented, which necessitated a**

reallocation of lecture groups for the second semester. These changes are essential to better manage the student numbers in venues and ensure a smooth academic experience.

Please ensure that you download your **updated** second semester timetable from MySUN. Please take note that only first year students are allocated to specific lecture groups. Senior students who register for first-year modules for the first time or repeat first-year modules must please attend a lecture group that best fits their timetable.

2.4. LECTURE TIMES

Lectures will be presented on the following days and times during 2025:

Lecture group and Language	Day	Time	Venue
Group 1.1 (English)	Monday	08:10-09:00	Math Sciences / Industrial Psychology 1005
	Wednesday	09:10-10:00	Math Sciences / Industrial Psychology 1005
	Thursday	12:10-13:00	Math Sciences / Industrial Psychology 1005
Group 1.2 (English)	Monday	08:10-09:00	Jan Mouton 3010
	Wednesday	09:10-10:00	Jan Mouton 3010
	Thursday	12:10-13:00	Jan Mouton 3010
Group 2.1 (English)	Monday	09:10-10:00	Van der Sterr 1011 (Entrance 5)
	Wednesday	12:10-13:00	Van der Sterr 1011 (Entrance 5)
	Thursday	08:10-09:00	Van der Sterr 1011 (Entrance 5)

Group 2.2 (English)	Monday	09:10-10:00	Schumann Annex 1027
	Wednesday	12:10-13:00	Schumann Annex 1027
	Thursday	08:10-09:00	Van der Sterr 2121
Group 3.1 (Afrikaans)	Monday	16:10-17:00	Van der Sterr 1011 (Entrance 5)
	Tuesday	14:10-15:00	Van der Sterr 1011 (Entrance 5)
	Friday	10:10-11:00	Van der Sterr 1011 (Entrance 5)
Group 3.2 (English)	Monday	16:10-17:00	Math Sciences / Industrial Psychology 1005
	Tuesday	14:10-15:00	Math Sciences / Industrial Psychology 1005
	Friday	10:10-11:00	Math Sciences / Industrial Psychology 1005
Group 3.3 (English)	Monday	16:10-17:00	Jan Mouton 3010
	Tuesday	14:10-15:00	Jan Mouton 3010
	Friday	10:10-11:00	Jan Mouton 3010

The attendance of all lectures is compulsory.

3. RESOURCES

3.1. PRESCRIBED TEXTBOOK

The CORE Econ Team 2023 The Economy 2.0: Macroeconomics.

This textbook is available for free as an eBook and can be accessed at:

<https://books.core-econ.org/the-economy/macroeconomics/0-3-contents.html>

NB. This book is different to the book used in 2024. Please do not use notes and resources from previous years.

3.2. SUGGESTED ADDITIONAL RESOURCES AND LITERATURE

Class notes (slides) and additional resources will be provided on the Economics 144 EMSLearn module page (emslearn.sun.ac.za).

4. LEARNING METHODOLOGY

4.1. METHOD OF INSTRUCTION

Principles of adult learning, with an emphasis on blended learning, will be applied. Methods of instruction include theoretical inputs, class discussions, practical exercises, and quizzes. You are invited to participate interactively in this module and ask questions in class whenever anything is unclear.

4.2. PARTICIPATION IN MODULE ACTIVITIES

Stellenbosch University is a residential university that provides teaching through face-to-face contact time complemented by an online learning management system (EMSLearn). To ensure that you master the learning outcomes of this module, there is an expectation that you keep up with the learning activities and actively participate in both the online and face-to-face components of the module.

4.3. TUTORIAL CLASSES

THE ROLE OF THE ECONOMICS 144 TUTORIAL PROGRAM: TO ENHANCE STUDENT SUCCESS

The Economics 144 Tutorial programme forms an integral part of the Economics 144 module. It is important that students are well informed about the functioning of this program, the role of the tutorial program in the Economics 144 module and the importance of attending tutorial classes.

It is important that students understand that formal lectures and tutorial classes are complementary, not substitutes. Students are strongly encouraged to attend both formal lectures and tutorial classes diligently if you would like to pass the Economics 144 module successfully.

HOW DOES THE ECONOMICS 144 TUTORIAL PROGRAM WORK?

Weekly tutorial classes will be presented from the week of 11 August 2025.

Tutorial exercises will be posted to students on EMSLearn in the week before a specific tutorial. These tutorial exercises will include a number of assessment type questions that will 'test' students' understanding of the new economic concepts that are discussed in each week's formal lectures. The purpose of the tutorial classes is primarily to provide students with the opportunity to apply the theory they learn in lectures. Students that attend tutorial classes are always expected to come well prepared to tutorial classes (this includes working through the tutorial questions beforehand and to use your textbook, slides and notes to answer the tutorial questions). Preparation is key so that you can actively participate in tutorial class discussions.

The purpose of the tutorial classes is not to merely provide students with the correct answers to tutorial questions, but to also discuss how to approach these types of questions. Please note that the answers to tutorial questions and any additional questions that are discussed in the tutorial class will only be provided to students during the relevant tutorial classes. These answers are therefore only to the benefit of those students that attend tutorial classes and tutors will not be allowed to release any 'memos' to students.

All the information related to the tutorial programme, including the tutorial venues will be published on the Economics 144 module page on EMSLearn.

Any further queries related to the tutorial programme can be sent by e-mail to ekontuts@sun.ac.za. Queries will only be responded to during office hours, within a reasonable time.

4.4. EMSLEARN

EMSLearn is an integral part of this module. It should be consulted regularly for resources, communication (including marks) and learning activities.

4.5. CONSULTATION TIMES AND THE USE OF THE EMSLEARN DISCUSSION FORUM

Please contact your lecturer by e-mail to schedule an appointment (the lecturers' contact details can be found in the "lecturer & additional information" section of this module framework).

The Discussion Forum function on EMSLearn should be used for all queries relating to the course content of the module. The discussion forum enables peer-to-peer learning and students are encouraged to answer each other's questions. Peer learning and individual student engagement are incredibly important in any learning environment. For this reason, posts should not be addressed to the lecturers. It is not necessary to start and sign-off the posts with formal greetings as one would with an email. If the query consists of multiple questions, please number the questions. Questions posted on the Discussion Forum will be answered in the language in which it was raised. Please note that the EMSLearn Discussion Forum is a public platform.

All queries not relating to the course content can be emailed to the lecturer. If a query about course content is of such a nature that it is difficult to ask and / or answer on the Discussion Forum, you are welcome to make an appointment with the lecturer.

E-mails to lecturers and queries on the Discussion Forum will be answered during office hours within a reasonable time, taking lecturers' other responsibilities into account.

4.6. COPYRIGHT

Stellenbosch University holds the copyright to all material in this module. Material which is made available through EMSLearn may be subject to certain licencing conditions. You may only use the material for your own private study and research at the University and not for any other purpose. Printed material is also only made available for class discussion, private study and research purposes. Further reproduction or distribution of such material is prohibited. Contravention of these rules will result in disciplinary action and may result in legal action.

5. ASSESSMENT FOR SEMESTER MODULES

The Faculty's Assessment Rules are available online on the faculty's webpage (www.sun.ac.za/ems), under the 'current students' tab. Please watch the information video on your module's EMSLearn page and make sure you read the section on Assessment in the module framework carefully.

The faculty's approach to assessment places the responsibility of learning with the student. Therefore, you must make use of all available assessment opportunities as far as possible and ensure that you understand how assessment in the module works.

5.1. ASSESSMENT OPPORTUNITIES

Assessment 1 (A1) Test 2 September 2025 Weight in final mark (FM) = 40%
Assessment 2 (A2) Test 29 October 2025 Weight in final mark (FM) = 60%
Assessment 3 (A3) Test 22 November 2025 Weight in final mark (FM) = 60%

Religious and cultural days: In addition to public holidays, during which the University will be closed for business, no assessments will be scheduled on specific religious and cultural days that are noted in the SU Almanac. If any main assessment is scheduled on a religious or cultural day not included in the almanac, it is the student's responsibility to request special arrangements. The following apply:

- For A2 and A3 the Assessment Office will make the necessary arrangements where possible. Visit the Assessment Office in Admin A throughout the course of the last two class weeks of the semester.
- For A1 the department will make the necessary arrangements if it can be feasibly done in accordance with the arrangements usually made by the Assessment Office for A2 and A3. If a student wants to request special arrangements for A1, they must **contact Ms Tony** (mtony@sun.ac.za) at least two weeks before **each** assessment opportunity.

The calculation of your final mark (FM) is based on a weighted formula. The formulas are used to calculate your progress throughout the semester and the marks will be made available on SUNStudent. The formulas are as follows:

Mark to date (MTD) before A2:

MTD = A1

If you did not write A1, you will not receive an MTD.

Final mark (FM)₁ after A2:

$FM_1 = (\text{Weight}_{A1} / \text{Weight}_{\text{sum}})(A1 \text{ mark}) + (\text{Weight}_{A2} / \text{Weight}_{\text{sum}})(A2 \text{ mark})$

FM₁ is assigned only if you wrote A2 and A1.

Final mark (FM)₂ after A3:

$FM_2 = (\text{Weight}_{A1} / \text{Weight}_{\text{sum}})(A1 \text{ mark}) + (\text{Weight}_{A2} / \text{Weight}_{\text{sum}})(A2 \text{ mark}) + (\text{Weight}_{A3} / \text{Weight}_{\text{sum}})(A3 \text{ mark})$

FM₂ is assigned only if you wrote at least two main assessments.

When calculating the MTD or a FM using the formulas please note the following:

- Weight_{sum} is the total weight of all the assessments that you have completed (minimum 100). Note that the final mark (FM) in Economics 144 is only made up of main assessments.
- For all missed main assessment opportunities (A1, A2 and A3), the weight of the relevant assessment will be reduced to zero in the mark calculation formula (however Weight_{sum} will never be less than 100).
- Your FM for the module is the highest of FM₁ or FM₂.

If you write both A1 and A2, your FM after A2 will be calculated as follows:

$$FM = \left(\frac{40}{100}\right) \times A1 \text{ mark} + \left(\frac{60}{100}\right) \times A2 \text{ mark}$$

If you do not write A1, but write A2 and A3, your FM after A3 will be calculated as follows:

$$FM = \left(\frac{60}{120}\right) \times A2 \text{ mark} + \left(\frac{60}{120}\right) \times A3 \text{ mark}$$

If you write all assessments (A1, A2 and A3), your FM after A3 will be calculated as follows:

$$FM = \left(\frac{40}{160}\right) \times A1 \text{ mark} + \left(\frac{60}{160}\right) \times A2 \text{ mark} + \left(\frac{60}{160}\right) \times A3 \text{ mark}$$

In line with the EMS faculty's assessment rules, your final mark in this instance is capped at 50 percent.

5.2. PASS REQUIREMENTS

Firstly, a **valid** final mark of **at least 50** is required to pass the module. To obtain a valid final mark you must:

- Complete at least one of A2 or A3; and
- complete at least two main assessment opportunities.

If you missed two main assessment opportunities, you cannot obtain a valid FM and therefore you fail the module. However, you still have access to A3 to allow you the opportunity to obtain a FM that could adhere to prerequisites or other requirements.

If you do not obtain a **valid** final mark, you fail the module.

Access to Assessment 3 (A3)

Note that it is not necessary to submit medical certificates or any other documents for missed assessment opportunities.

You have access to A3 if either of the following applies:

- If you completed all of the main assessment opportunities other than A3 (A1 and A2) but have not obtained an FM of 50 or more, you have access to A3 in order to improve your FM to 50.
- You missed a main assessment opportunity (A1 or A2) for whatever reason. In this case, a FM of 50 or more can still be obtained if you make use of A3.

No further assessment opportunities will take place after A3.

If you passed the module after A2, and you have access to A3 (because you missed a main assessment) you must inform the Registrar's office through the relevant procedure on SUNStudent of your intention to use the A3 assessment opportunity. This notification must be submitted by no later than 48 hours after the final marks after A2 have been released.

Take note: If you are a final-year student and make use of A3 in the second semester, graduation will only be possible in March/April of the next academic year.

5.3. WORK COVERED PER ASSESSMENT OPPORTUNITY

The prescribed work covered per assessment opportunity is as follows:

- Assessment 1 (A1): Units 1, 2 and 3
- Assessment 2 (A2): Units 3, 4, 5, 6 and 7.
- Assessment 3 (A3): Units 1 to 7 (all prescribed work of the semester).

5.4. TURNOVER TIME/FEEDBACK

Announcements will be made on EMSLearn when assessment marks are released. Please allow approximately 3 to 4 weeks for assessment marks to be finalised and published.

5.5. HANDOUT OF TESTS AND APPEAL PROCEDURE

Announcements with details will be made on EMSLearn.

6. WORK PROGRAM

Week	Date	Topic	Unit
1	21-25 July 2025	The supply side of the macroeconomy: Unemployment and real wages	Unit 1
2	28 July - 1 Aug 2025	The supply side of the macroeconomy: Unemployment and real wages	Unit 1
3	4-8 Aug 2025	The supply side of the macroeconomy: Unemployment and real wages	Unit 1
4	11-15 Aug 2025	Unemployment, wages, and inequality: Supply-side policies and institutions	Unit 2
5	18-22 Aug 2025	Aggregate demand and the multiplier model	Unit 3
6	25-29 Aug 2025	Aggregate demand and the multiplier model	Unit 3
7	1-5 Sept 2025	Inflation and unemployment	Unit 4

RECESS: 6 to 14 September

8	15-19 Sept 2025	Inflation and unemployment	Unit 4
9	22-26 Sept 2025	Macroeconomic policy: Inflation and unemployment	Unit 5
10	29 Sept- 3 Oct 2025	Macroeconomic policy: Inflation and unemployment	Unit 5
11	7-11 Oct 2025	The financial sector: Debt, money, and financial markets	Unit 6
12	14-18 Oct 2025	The financial sector: Debt, money, and financial markets	Unit 6
13	20-24 Oct 2025	Macroeconomic policy in the global economy	Unit 7
